Genesis Radiation Oncology Achieves ACRO Accreditation

The American College of Radiation Oncology congratulates Genesis Radiation Oncology on obtaining full 3-year accreditation. Genesis Radiation Oncology underwent an intense expert audit of all aspects of treatment involving radiation therapy, and has met or exceeded standards of the College. Rigorous review of physics, technology, and clinical physician practice peer review have been completed. Radiation therapy is an important modality in the treatment of cancer. The Genesis Radiation Oncology team of physicians and staff joins the 244 practices nationwide who have achieved ACRO Accreditation. ACRO Accreditation is the only US radiation oncology accrediting body to achieve ISO 9001: 2015 Certification.

Congratulations on achieving this high distinction in cancer treatment!

Genesis Locations with ACRO Accreditation:
