

Genesis
HEALTHCARE

A message from our President and CEO regarding COVID-19

Amid the uncertainty, one thing that remains constant is that Genesis Healthcare Partners are focused on the health and safety of our patients and employees. We are closely monitoring the COVID-19 situation, which is constantly evolving with new information. Each decision we make is consistent with the facts and advice provided by the World Health Organization and the CDC. Genesis Healthcare offices are open to patients currently. We have now implemented Telemedicine, which is the use of telecommunication through technology to provide clinical health care at a distance for those patients that cannot or don't feel comfortable going out into the public.

In our clinics, we are following strict guidelines for not only social distancing, but also taking all measures using universal precautions to combat the spread of COVID-19.

This is not a situation any of us were anticipating, but we are confident this challenging period will pass.

Best regards,

Edward Cohen, MD
President and Chief Executive Officer
